CNC OXY-FUEL CUTTING SYSTEM

A BULLETIN 15 APPROVED COMPANY

- Table capacity:
120" wide
640" long
- Up to 12" thick
- High Speed
ALFA torches for
precise parts
- Tight tolerances
- Multiple CNC
controlled
multi-torch
oxy-fuel machines

Minerd Steel has multiple CNC controlled multi-torch oxy-fuel machines to keep your production schedule true. The machines are fitted on downdraft Slagger tables with a cutting envelope of 120" x 640". High speed ALFA torches keep tight tolerances.

Please let us know if you require any special packaging or handling. We will accommodate your needs.
